English Language Policy

Our language program follows the principle of linguistic immersion because we believe that the best way to improve a new language is to use it to communicate at all times. It is particularly important that you use breaks and social occasions to practice the language you are learning. When talking with friends, you are using real language in real situations, and this is a unique opportunity to improve.

At ALI we realize it will be a challenge for our students to use only English but we believe that it is our responsibility to ensure that each student improves as much as possible while at ALI. We also know that to respect this policy is to respect the commitment you made to yourself when you applied to ALI. So remember: speak English and have fun!

English only policy:

1. While at ALI you must communicate with other students, teaching staff, and administrative staff in English at all times.

2. If you do not respect the policy, you will receive a warning.

- After **3** warnings, you will be suspended for **2 days.**
- After **4** warnings, you will be suspended for **5 days.**
- After **5** warnings, **you will be suspended officially from school**.
-

I, _____ agree to comply with ALI's English Language Policy.
